

CAMDEN DRIEDGER

Graphic Designer / Photographer

EDUCATION

2017-present York University / Sheridan College

Bachelor of Design

Since September 2017, I have been enhancing my design skills and turning them into more than just a hobby while attending York University and Sheridan College. I am currently working towards earning my bachelor's degree in Design by 2021.

EXPERIENCE

2016-2017 Cowlick Studios Leamington, ON

Freelance Designer (Summer Position)

After combining my experience in a design studio / print shop with my independently developed skills in graphic design and other forms of graphic media, I worked as a freelance graphic designer for Cowlick Studios, where they specialize in web and graphic design.

2015-2016 Speedprint Ltd. Leamington, ON

Print Shop Assistant (Summer Position)

Working as a print shop assistant at Speedprint Ltd. while I was just stepping foot into the world of graphic design gave me practical experience working in a design / print studio environment.

2012-2017 JN Driedger Farms Ltd. Leamington, ON

Farm Assistant

Working on the farm for many years performing a wide range of physical tasks provided me with a solid work ethic. I have learned how to work hard since a young age, and I am glad to be able to use this skill in whatever job I take on next.

ABOUT ME

I am a passionate, creative, and young multimedia artist. I'm currently based out of Oakville, ON and I am currently enrolled in YSDN (York University and Sheridan College) improving my craft and working to earn my bachelor's degree in design.

When I'm not designing, I can most likely be found taking photos in the streets or writing music on my guitar! Whether I am designing or I am just taking up one of my hobbies, I enjoy being creative in everything that I do.
